He called me a cunt, and then I hung up. For the file.

That's essentially what he said to me. And he asked if I'd been fired (without realizing he was talking to me).

He called me too – on my personal cell. Didn't identify himself but I recognized the voice. He started to speak about fake posts by Bob Serpico and I hung up.

I don't know if you are still keeping track. Anonymous just called me – I'm assuming it was SG. He refused to give his name, and I didn't give him mine. He had a rambling story about potentially fake posts that people were trying to get him to make involving me. And then he got offensive, and I hung up.
